## **Title: "Voices of Europe"**

Verse 1: In every heart, a voice is found,  
A melody that knows no bound.

From mountains high to oceans wide,  
Our words unite, our hearts collide.

Through languages, we learn, we grow,  
A world of wonders we come to know.

Together we sing, together we strive,  
A symphony of tongues alive.

Chorus: Voices of Europe, strong and free,  
A tapestry of unity.

Through every word, a bridge we build,  
With love and peace, our dreams fulfilled.

Verse 2: Each language holds a story deep,  
Of laughter shared and tears we weep.

From past to future, hand in hand,  
We celebrate this vibrant land.

Let's cherish all, from old to new,  
The tones, the rhythms, every hue.

A rainbow's glow, a starry light,  
A world of voices shining bright.

Chorus: Voices of Europe, strong and free,  
A tapestry of unity.

Through every word, a bridge we build,  
With love and peace, our dreams fulfilled.

Bridge: No borders can divide our song,  
In every voice, we all belong.

Let's celebrate diversity,  
Our shared and rich identity.

Chorus: Voices of Europe, strong and free,  
A tapestry of unity.

Through every word, a bridge we build,  
With love and peace, our dreams fulfilled.

Outro: So raise your voice, let's sing as one,  
Our journey's just begun.

In harmony, we'll always stay,  
On this European Language Day.
